

Extended DISC® Personal Analysis

Extended DISC® Personal Analysis is our most popular tool. Its success is based on its strong ability to provide information to make better decisions. Too often assessments tell us what we already know: “Oh yes, that’s me.” If a tool only provides information that the user is already aware of, it has very limited value.

Extended DISC® Personal Analysis is designed to provide information that makes an impact, is actionable and, most importantly, has a positive impact on performance.

What is Extended DISC Personal Analysis?

Personal Analysis is a self-assessment that identifies the strengths and development areas of an individual. What makes *Personal Analysis* different from other assessments is that it is able to measure at a deeper unconscious level to exclude the impact of the environment.

In practice this means that the result show who the individual actually is and not what the person thinks he/she needs to be in the existing environment. As a result, the report identifies the true strengths and development areas to allow for true performance improvement.

“Finally assessments that provide results for behavioral change.”

Dr. Marshall Goldsmith, Ranked as a Top 10 Executive Educator by the *Wall Street Journal* Member, Peter Drucker Foundation
One of the World’s Top Consultants, *HR Magazine*
Top 5 Executive Coach, *Forbes*

How does the process work?

Extended DISC® Personal Analysis is very easy to use. The questionnaire takes only 10 minutes to complete. It is available online (paper and software options also exist) in 40 languages to meet the needs of today’s diverse workforce. The reports are customizable – just click and choose the information that you need. If you want additional information later, you can access the information anytime. Options include:

- **Leadership**
- **Sales Style**
- **Customer Service**
- **Management**
- **Information Technology**
- **Project**
- **Administrative**
- **Training**
- **Team**
- **Entrepreneurial**
